

Ready to shape the future? Become a UX Specialist at kemmler.de!

About Promptus:

Welcome to Promptus - a successful business angel boutique founded in Berlin in 2011. We are not just investors in ideas; we are also creators of our own visions. Our success story includes companies like Hotel MSSNGR, a groundbreaking software solution for guest communication in hotels. Additionally, as a technical service provider, we support the construction industry for our long-term client kemmler.de. Our passionate team consists of developers, UX designers, and product managers who work together to create greatness.

Your Mission: Senior User Experience Specialist for kemmler.de (f/m/d)

Do you want to revolutionize e-commerce and elevate digital experiences to a new level? Your journey begins here! We are looking for reinforcement for our client, Kemmler Baustoffe GmbH in Reutlingen. As a Senior User Experience Specialist, you will shape the future of the leading online shop kemmler.de with innovative ideas. Your mission is to build close relationships with stakeholders, understand their needs, and fulfill them through refined UX concepts.

Your Playbook:

- Become the wizard of ideas, turning research and analysis into revolutionary products.
- Bring innovations to life through sketches and prototypes.
- Continuously refine with feedback from customers, developers, and product managers.
- Work closely with developers and product managers to bring visions to perfection.
- Use metrics and KPIs as your tools to measure and optimize progress.
- Take the lead on products that inspire excitement.
- Collaborate with external experts to boost the conversion rate.

Your Profile:

- Minimum of five years of UX experience in dynamic, cross-functional teams.
- Responsive UX design is more than just a trend for you.
- You master the entire user-centered design process.
- Bring concepts to life with tools like Sketch, Figma, or Adobe XD.
- UI frameworks like Material.io, Bootstrap, or MUI are part of your world.
- With technical understanding, you build partnerships with developers.
- Your communication is inspiring and concise.
- Data is the key to innovation and smart decisions for you.
- Proficiency in both German and English, spoken and written.

Extra Mile:

- Design systems are your passion; you know how they grow.

- You excel with surveys, A/B tests, and tracking software.
- You feel at home in agile/Scrum environments.

Your Rewards:

- 5 weeks of paid vacation for your downtime.
- A fantastic loft office in Berlin-Kreuzberg.
- Exciting team events, from culture to sports.
- Flexibility for remote work to achieve peak performance.
- A team where camaraderie is valued.

Ready for the challenge? Your design talent can change the construction industry.
Apply now - together, we'll set the standards!

Equal opportunities for all. We strongly encourage applications from people with diverse backgrounds and experiences.

Please quickly enter your application details in the form below - your support ensures a smooth and speedy process. Thank you!
